Where Engineering Meets Vision

At Voyants, we believe infrastructure is more than the creation of physical assets—it is the foundation of economic growth, resilient communities, and a sustainable future.

As an Indian-origin multinational infrastructure consulting firm, we deliver integrated solutions across the entire project lifecycle. Our expertise spans Buildings, Railways, Roads & Highways, Ports & Marine, Power & Electrical Systems, Water & Sanitation, Townships, Special Economic Zones, and Environmental Solutions, backed by comprehensive capabilities in engineering, project management, transaction advisory, and strategic consulting.

From concept to commissioning, we work alongside governments, public agencies, multilateral funding institutions, and private sector clients to transform complex challenges into practical, high-impact solutions. By combining deep technical expertise with innovation, digital technologies, and global best practices, we create infrastructure that is efficient, resilient, and built for the future.

With a commitment to quality, sustainability, and long-term value creation, Voyants continues to shape infrastructure that connects people, powers progress, and leaves a lasting positive impact.

Vision

To be a globally respected infrastructure & engineering consultancy company providing value to its customers.

At Voyants, we imagine infrastructure not just as systems and structures, but as enablers of opportunity — building a better, more resilient future across geographies and generations.

Mission

Concept value to customers through technologically superior human capital, quality, teamwork & innovation.

From concept to commissioning and beyond, we deliver value by aligning deep sectoral expertise with digital technologies, sustainability practices, and a commitment to improving lives.

Values

At VOYANTS, we cherish our VALUES. We expect all our employees to maximize and uphold the Voyants Values in the way we conduct our business — every day, every way.

Our values aren't just statements — they are behaviors we live by, reflected in every interaction, every project, and every decision we make.

Infrastructure, Technology and Human Capital

With modern workspaces and advanced digital ecosystems, Voyants has built a strong intellectual and technological infrastructure to support its growing talent base and project delivery needs.

Voyants has an extensive office network Pan India and international locations. With its Corporate Office in Gurugram (NCR), Zonal Offices in Hyderabad and Kolkata, Regional Offices in key cities including Chennai, Bengaluru, Mumbai, Bhopal, and Vijayawada, along with multiple project offices, we ensure strong on-ground presence and seamless client support. Our global footprint spans key regions in Africa and Asia, enabling us to mobilize teams efficiently across geographies.

Our knowledge resources are centrally managed through secure digital systems, enabling seamless access and collaboration across all offices and project locations worldwide.

All offices are interconnected through advanced communication and video-conferencing systems, facilitating real-time coordination with teams and clients across locations.

We leverage contemporary hardware and industry-leading software platforms to deliver high-quality, efficient, and technology-driven solutions. Our core digital ecosystem includes:

Bentley Systems Suite
(OpenRoads, OpenRail, SewerGEMS, STAAD, WaterGEMS, MicroStation, gINT and allied applications)

Bentley ProjectWise 365
for integrated project collaboration and document management

Design, visualization & rendering tools such as SketchUp Pro, V-Ray and Adobe Creative Cloud

Project management, financial & enterprise tools including Tally ERP, MS Project, PMIS & Payroll Systems

Advanced engineering and analysis tools including MIDAS Civil, ETAP, ETABS, SAFE and AERMOD

Autodesk AEC Collection
Including BIM, Civil 3D, AutoCAD, Autodesk Revit & specialized toolsets

GIS and mapping tools such as ArcGIS and Global Mapper

What truly defines Voyants is its people.

Our team comprises over 1700* professionals, bringing together diverse expertise across infrastructure domains.

The multidisciplinary team includes planners, engineers, architects, environmental specialists, financial analysts, legal experts, and management professionals, with many members from premier institutions such as IITs, NITs, and SPAs.

Voyants provides a platform that blends local expertise with global exposure, enabling individuals to grow, perform, and contribute meaningfully to complex infrastructure projects.

We are building a performance-driven and collaborative work culture that encourages accountability, continuous learning, and ownership across all levels of the organization.

Our teams work in close coordination across divisions and geographies, enabling us to take on complex assignments while consistently delivering quality and meeting client expectations.

Supported by a strong and experienced leadership team, Voyants continues to strengthen its position as a trusted and evolving infrastructure consultancy.

Message from the Managing Director

Infrastructure shapes the future. At Voyants, we help build it.

Two decades ago, we had nothing but a belief: that an Indian infrastructure consulting firm could lead on knowledge, integrity, and quality. Today, that belief spans continents, careers, and a legacy still being written — a firm present across Asia, Africa, Europe and North America, shaping how infrastructure is conceived and delivered in this country and beyond.

But scale was never the point. How we built it — that is what matters.

At its core, Voyants has always been about its people. The relationships forged across years of demanding work. The values lived, not just stated. A culture where walking into the office feels like coming home.

That same spirit shows up in everything we do — from the first concept sketch to commissioning beyond planning, design, execution support and operations advisory, we bring discipline, purpose, and an unwavering belief that every design, every report, every recommendation is a contribution to nation-building.

We listen first. We understand what matters today and what matters for the next decade. Quality. Timelines. Trust. These aren't buzzwords — they are how Voyants earned recognition on the global stage. And it is how we have built a presence across India and international markets that our clients trust deeply.

Sustainability isn't bolted on at the end of our projects — it's built in from day one, in every design decision, every plan, shaped with the environment and the community in mind.

Above all, it is our people who define us. Over 1,700* professionals — sharp, driven, and deeply committed — turn ideas into infrastructure that lasts. Clients trust us because our people are committed. Projects succeed because our teams are cohesive. And our teams are cohesive because they genuinely care about each other.

We have laid down a clear Five-Year Plan. AI, Digital Twins, and data-driven delivery are already today's standard — and we are building Voyants to lead in that world. The next chapter will not be defined by what we have done. It will be defined by the quality of our execution from here.

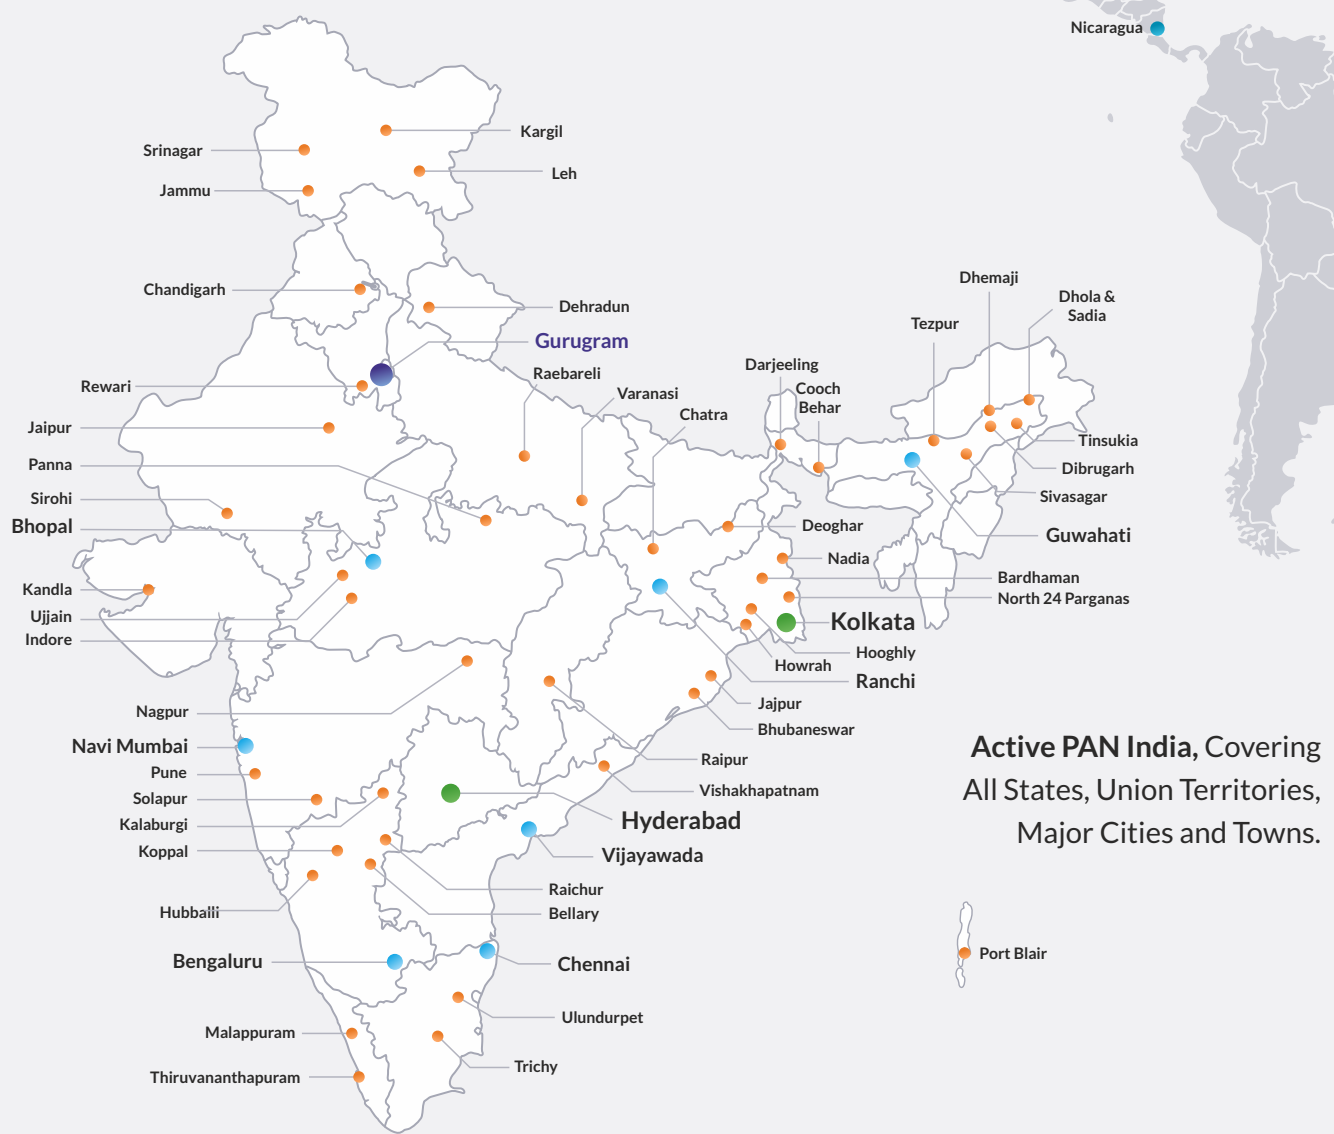

We have the right people. We have the right vision. We have the right moment.

The most defining years of Voyants are still in front of us — and I have never been more certain of that than I am today.

From Vision to Commissioning - Every Sector. One Partner.

From inception to long-term preservation, we provide a comprehensive suite of solutions designed to navigate the complexities of the project lifecycle. Our expertise bridges the gap between strategic vision and operational reality, ensuring that every phase—whether conceptual, structural, or functional—is executed with precision and foresight. By integrating technical excellence with proactive management, we empower our clients to mitigate risk, maximize efficiency, and ensure the sustained success of their most vital assets.

Driving Infrastructure Forward

A multisector infrastructure consultancy shaping infrastructure across every major sector—transforming how nations move, build, manage, and thrive. Across 36+ countries, our teams engineer resilient cities, modernize essential systems, and enable next-generation infrastructure — from smart infrastructure development and renewable energy hubs to economic corridors, industrial townships, and critical public utilities.

Architecture & Project Management

Shaping Vision. Delivering Precision. Ensuring Success.

At Voyants, our Architecture and Project Management team brings together design excellence and disciplined execution to deliver spaces that are efficient, compliant and future-ready.

With experience across residential, commercial, institutional and large-scale developments, we provide integrated services from concept design and approvals to construction management and project delivery. Our approach ensures alignment between design intent, cost, quality and timelines at every stage.

Driven by a strong focus on sustainability, value engineering and regulatory compliance, we create built environments that are not only functional and cost-effective, but also enduring and context-responsive.

Powering Growth. Driving Efficiency.
Advancing Energy Solutions.

Voyants delivers integrated consulting services across the power sector, supporting the planning, design and execution of robust, scalable and sustainable energy systems.

With strong capabilities in transmission and distribution networks, substations and energy infrastructure, we work with utilities, developers and public sector clients to deliver technically sound and future-ready solutions. Our experience spans industrial developments, SEZs and urban infrastructure, supported by data-driven analysis and engineering expertise.

From feasibility and detailed engineering to project management and commissioning, we ensure performance, efficiency and reliability across the entire project lifecycle.

Environment Management Services (EMS)

Protecting Ecosystems. Ensuring Compliance. Driving Sustainability.

At Voyants, sustainability is embedded across the project lifecycle, enabling clients to develop infrastructure that is resilient, compliant and future-ready.

Our Environment & Sustainability team provides integrated advisory services across environmental and social impact assessment, regulatory compliance and sustainability strategy. With experience across diverse sectors and geographies, we support clients in navigating complex environmental frameworks while aligning projects with global standards and best practices.

From impact assessments and due diligence to climate resilience and ESG advisory, we deliver solutions that minimize environmental risks, enhance social outcomes and promote long-term sustainability.

Key Sub-Sectors

- Mining & Mineral Development
- River Valley, Irrigation & Hydropower Projects
- Thermal Power Plants
- Industrial Parks, SEZs & Large Developments
- Ports, Harbours & Dredging Projects
- Highways & Linear Infrastructure
- Waste Management Facilities (Solid & Hazardous)
- Buildings & Large Construction Projects
- Townships & Area Development
- Onshore & Offshore Pipelines

Services Offered

Impact Assessment & Planning

- Environmental & Social Impact Assessment (EIA / ESIA)
- Environmental & Social Management Plans (ESMP / ESMF)
- Social Impact Assessment & Resettlement Planning (RAP / R&R)
- Stakeholder Engagement & Public Consultation

Sustainability & ESG Advisory

Infrastructure Planning & Design

Planning Ahead. Designing Impact. Building Tomorrow.

At Voyants, we deliver comprehensive planning and design solutions that transform urban and regional landscapes into balanced, sustainable and economically viable developments.

Our multidisciplinary approach combines strategic planning, engineering expertise and data-driven analysis to guide projects from concept to implementation. With experience across cities, regions, industrial corridors and large-scale developments, we enable clients to make informed decisions that align infrastructure growth with community and environmental priorities.

From master planning and feasibility studies to detailed design and implementation support, we create infrastructure frameworks that are adaptable, scalable and built for long-term impact.

Ports & Marine

**Connecting Ports. Enabling Trade.
Strengthening Economies.**

Voyants delivers integrated consulting solutions across port and maritime infrastructure, supporting the development of efficient, resilient and future-ready coastal and inland systems.

With expertise spanning greenfield ports, marine structures and logistics integration, we provide end-to-end services from concept planning and feasibility to detailed engineering and project delivery. Our multidisciplinary approach combines engineering excellence, environmental insight and strategic planning to create sustainable and high-performing port ecosystems.

From port connectivity and logistics infrastructure to coastal protection and marine engineering, we enable seamless integration between maritime and inland transport networks—driving efficiency, scalability and long-term value.

Key Sub-Sectors

- ▶ Greenfield Ports & Port Expansion
- ▶ Marine Structures (Berths, Jetties, Breakwaters)
- ▶ Coastal Protection & Shoreline Management
- ▶ Specialized & Passenger Terminals
- ▶ Shipyards & Marine Facilities
- ▶ Inland Water Transport & Navigational Channels

Rail Infrastructure

Advancing Railways. Enhancing Connectivity. Shaping the Future.

Voyants delivers integrated consulting services across railway and metro infrastructure, supporting the development of safe, reliable and future-ready mobility systems.

With expertise spanning track, electrification, signaling and associated infrastructure, we provide end-to-end solutions from planning and feasibility to detailed engineering and project delivery. Our multidisciplinary team brings deep domain experience across conventional rail, metro systems and freight connectivity—ensuring compliance with national standards and operational efficiency.

From new rail corridors and capacity enhancement to station development and logistics integration, we enable seamless connectivity and long-term performance across rail infrastructure systems.

Key Sub-Sectors

- ▶ Track, Formation & Rail Infrastructure
- ▶ Signaling & Telecommunication Systems
- ▶ Electrification (OHE & General Electrical)
- ▶ Railway Sidings & Freight Infrastructure
- ▶ Bridges, Structures & Stations

Transaction Advisory & Financial Services

**Evaluating Opportunities.
Managing Risk. Creating Value.**

Voyants provides integrated transaction advisory and financial consulting services, supporting clients in structuring viable, bankable and well-governed infrastructure projects.

Our multidisciplinary approach combines financial analysis, legal insight and sector expertise to guide projects from concept to financial closure. We work with governments, developers and investors to structure transactions, manage procurement processes and enable effective private sector participation.

From feasibility and project structuring to bid process management and contractual advisory, we deliver context-driven insights that support informed decision-making and successful project outcomes across the infrastructure lifecycle.

Key Sub-Sectors

- Transportation (Roads, Railways & Bridges)
- Industrial Parks, SEZs & Land Development
- Smart Cities & Urban Infrastructure
- Commercial & Residential Developments
- Ports, Airports & Logistics Infrastructure
- Energy & Utilities
- Water, Sanitation & Waste Management

Services Offered

- Fund Arrangement

Contracts & Legal Services

Structuring Contracts.
Managing Risk. Protecting Interests.

Voyants provides comprehensive contracts and legal services to ensure clarity, compliance and risk mitigation across the project lifecycle.

Our team supports clients in structuring, drafting and administering contracts across consultancy, EPC and PPP projects—ensuring alignment with commercial objectives and regulatory requirements. With deep expertise in infrastructure laws and contractual frameworks, we enable well-governed projects with clearly defined roles, responsibilities and risk allocation.

From legal due diligence and compliance to dispute resolution and claims management, we safeguard project interests and ensure contractual integrity from inception to closure.

Key Sub-Sectors

- ▶ Contract Management & Administration
- ▶ Legal Advisory for Infrastructure Projects
- ▶ Claims, Dispute Resolution & Arbitration
- ▶ Compliance & Regulatory Advisory
- ▶ International Contracts & Cross-border Advisory
- ▶ Stressed Asset & Risk Management

Services Offered

Contract Structuring & Documentation

- ▶ Drafting & Review of Contracts (EPC, PMC, PPP, FIDIC)
- ▶ MoUs, NDAs, LOIs & Consultant Agreements
- ▶ Contract Negotiation & Commercial Alignment

Legal Advisory & Compliance

- ▶ Legal Due Diligence (Land, Licenses, Approvals)
- ▶ Regulatory & Statutory Compliance Advisory
- ▶ Risk Assessment during Bidding & Execution
- ▶ ESG & Environmental Legal Advisory

Claims & Dispute Management

- ▶ Claims & Variations Management
- ▶ Dispute Resolution (Arbitration / Mediation Support)
- ▶ Quantum & Damage Analysis
- ▶ Litigation Support & Legal Strategy

Governance & Contract Administration

- ▶ Contract Compliance Frameworks
- ▶ Documentation Management & Audit
- ▶ Regulatory Liaison & Approvals Support
- ▶ International Contract Advisory

Our People

At Voyants, our people are the foundation of our success. We foster an environment that promotes well-being, collaboration, and meaningful engagement through cultural celebrations, health initiatives, and sustainability-driven activities. From bringing teams together through shared experiences to encouraging healthier lifestyles and environmental responsibility, we are committed to creating a workplace where every individual can grow, contribute, and feel valued.

Cultural Engagement

Strengthening bonds and fostering a vibrant workplace through celebrations and team activities.

Recognizing Excellence Within

We take pride in recognizing the dedication, achievements, and contributions of our people. Through various employee recognition initiatives, we celebrate excellence, encourage innovation, and appreciate those who consistently go above and beyond in driving success and creating value for our clients and organization.

Environmental Responsibility

Encouraging sustainable practices through plantation drives and community-focused environmental initiatives.

Employee Wellness

Promoting health and well-being through initiatives such as eye care camps and preventive healthcare programs.

Awards & Recognitions

Celebrating Excellence & Achievements

Over the years, Voyants has earned recognition from leading industry bodies and professional institutions for its contribution to infrastructure development and engineering excellence. These accolades reflect our commitment to innovation, technical expertise, quality delivery and sustainable project outcomes across diverse infrastructure sectors.
